SCHERMER CAPTIVE-BOLT STUNNERS

ALFA EXCLUSIVE

Made In Germany

For more than half a century Schermer Humane Stunners have been used to stun cattle, hogs, sheep and other livestock in slaughterhouses all over the world. All Schermer bolt stunners are backed by more than 100 years of experience and offer the following advantages:

Rugged: Simple design and hardened alloy steels that stand up to the toughest packinghouse conditions. No need to restrain the animal in a holding pen.

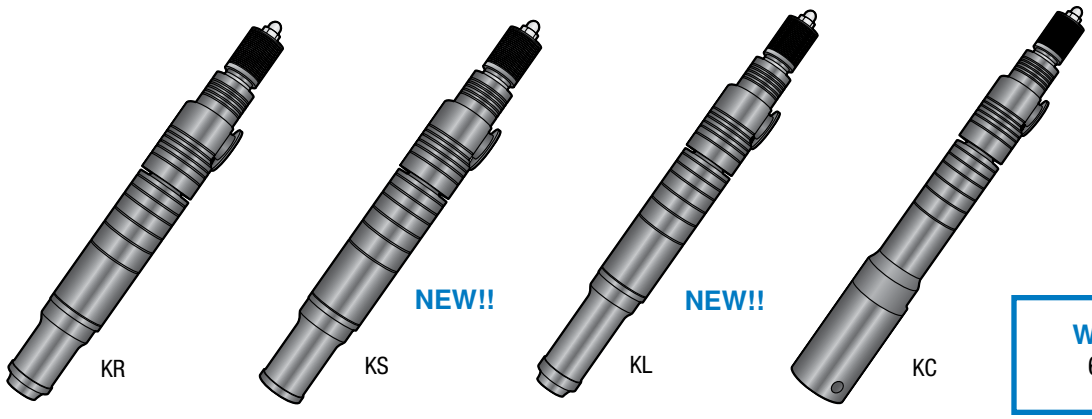
Lightweight: Each stunner weighs about 7 lbs. and affords one hand operation.

Versatile: Choose from three cartridge strengths to meet any power requirements.

Economical: Cartridges and spare parts are inexpensive to purchase.

Easy Maintenance: All cleaning and repair can be done quickly with simple tools.

Ease of Operation: Simply turn the head part one-quarter turn to open the stunner and insert cartridge, close stunner, then pull back the top of the stunner to cock it. Depress the trigger to fire. The captive bolts are restrained by rubber buffers so they work with little recoil. Trigger safety designed to avoid unintentional firing.



Warranty: 6 Months
