PIG SPOT™

SWINE MARKER

A useful tool in your bio-security program against the PEDS virus. Our simple, one step marker is designed to help reduce cross-contamination from litter to litter.

Made In The USA

Pig Spot Benefit Comparison Chart

Pig Spot	Syringe / Spray Marker Combo
Provides between 1000 to 2000 marks per bottle	Provides between 100 to 300 marks per can
Average cost per mark: 0.5 cents	Average cost per mark 3 cents
No VOC's	Contains <85% VOC's
Safe to use, no warning labels required	Contains chemicals that require the California Prop 65 Warning labels
Container is made from recyclable plastic	Metal aesosol cans, more difficult to dispose of properly
Screw-on Cap keeps dye off hands and clothing when not in use	Potential for spill if press-fit cap comes off inside of pocket
Water-based dye formula, no fire hazard	Material is highly volatile, do not expose to open flame or other sources of ignition
Works with any style or brand of syringe	Must be used with specific syringe
