

From Concept to Reality

Introducing the Quick-Sling
ceiling mount. The most
exciting new product in
the world of HVAC!

QUICK-SLING

So, what is all this talk about Quick-Sling?

From Inspectors:

*“What is the **safest** installation solution for both heating and air conditioning units?”*

From Installers:

*“The attic is over 120° and we have a unit to hang today, what is the **quickest & most efficient** installation solution?”*

From HVAC Co. Owners:

*“What is the most **cost effective** installation solution that allows us to meet our service demand?”*

From HVAC Supply Houses:

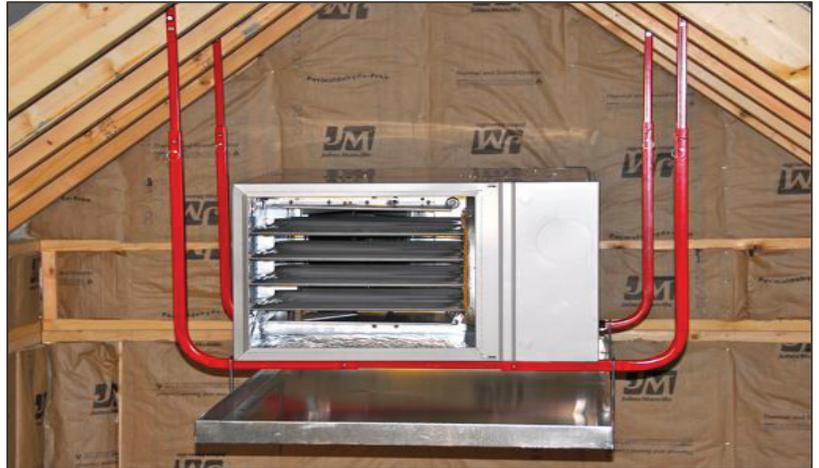

*“Is there one new product out there that is **exciting** enough to drive our over-the-counter sales to our HVAC installer customers?”*

From Customer:

*“What **professional** installation process is going to allow me to choose the right company?”*

The Answer?

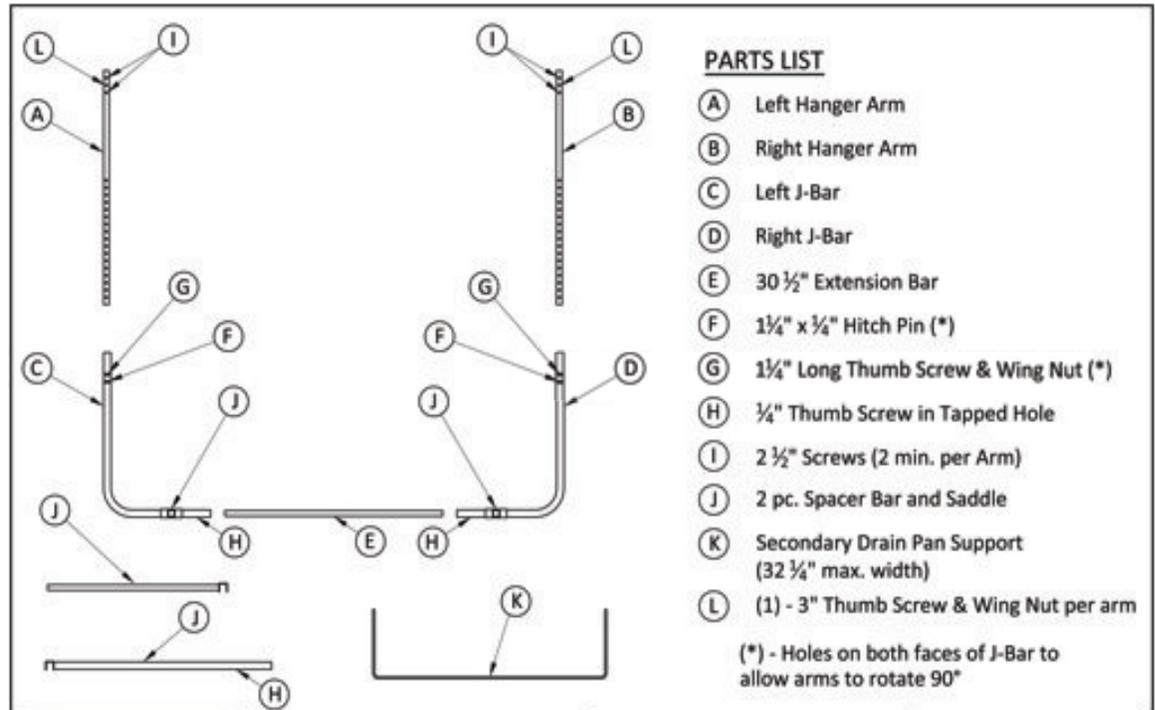

QUICK-SLING

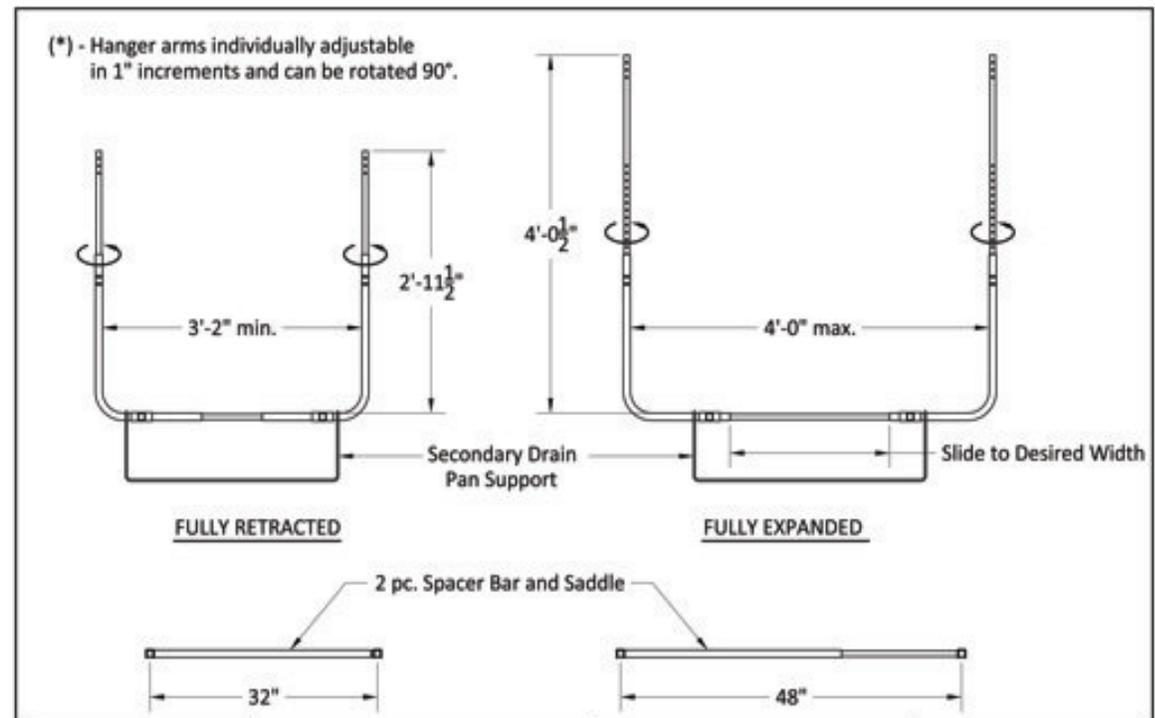

Quick-Sling Advantages:

- **Safety:** The most stable platform available **anywhere!** (Quick-Sling includes: through-bolt technology; 12 point anti-vibration isolation; tested to hold over 800 lbs.)
- **Quick & Efficient:** Literally out of the box and installed with a unit in **5 minutes!!** (All installation hardware included; open the box and you are ready to go; option of adding a drain pan and float switch for a total installation package!)
- **Cost Effective:** Install time cut by as much as **90%!!** (Immediate savings is realized in less out of pocket hours paid as well as a corresponding overhead reduction! Most likely to cut total job install time to just one day which, allows HVAC pro to start a new customer the next day!)
- **Exciting:** Quick-Sling is a **major breakthrough** in the world of HVAC installation!! (And, it fits all air handlers or furnaces on the market today; with an equal fit for new construction or replacement units - that fact alone is exciting!!)
- **Professional: 100% Satisfaction Guaranteed!!** (Durable powder coating; long-term stable platform.)

O.K. let's take a look at the details!
