

Description

AluShield is a convenient, water-resistant aerosol bandage that creates a protective barrier against external irritant agents in wounds in small and large animals.

Each gram contains:

Aluminum Powder 40 mg

Directions for Use:

Shake well before use. Clean the area to be sprayed. Apply AluShield to cover the area to be protected with a thin layer of powder.

Precaution:

Avoid spraying in animal's eyes.

Caution:

Contents under pressure. Do not use in the presence of an open flame or spark. This product stains. Avoid contact with hands and clothes.

Warning:

External use only. Keep out of the reach of children.

Storage:

Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container. Do not store at temperatures above 50°C (122°F)

AluShield™

Spray it on and it works!

The Water Resistant Aerosol Bandage

Water Resistant

AluShield contains a proprietary carrier that causes the active wound-protective formula to adhere to the skin and will not wash off with hot or cold water. AluShield can be washed off, however, with soapy water to inspect the wound. The usual reapplication of AluShield is every three days to insure that an optimal bacterial barrier is maintained.

Essential To Wound Recovery is Oxygen

AluShield, Aerosol Bandage allows the wound to oxygenate (breathe) to aid in the essentials of wound healing. AluShield may also be applied over ointment or salves used to aid in wound healing.

Emergency

AluShield is a *must have* product for equine and farm first aid kits because of the frequent injuries and accidents experienced with horses and farm animals.

Safe

AluShield may be used in wounds in which protection against bacterial contamination is needed. And, AluShield *does not contain sulfa or antibiotics*, which is a concern in food producing animals intended for food.

Small Animals

AluShield is used in wound treatment for dogs and cats in which oxygenation of the wound is desired, but a bacterial barrier is needed.

AluShield Aerosol Bandage

- No Sulfa or Antibiotics
- No Residues
- Fast and Easy Spray Application
- Allows the Wound To Breathe
- Reduces Risk of Infection
- Protection Without Pain
- Exceptional Adhesion
- Remove With Soap
- Essential To All First Aid Kits

Great for:

- Dehorning
- Castrating
- Tail Docking
- Summer Sores
- Cuts and Scrapes
