

# **NurseMate**<sup>®</sup> ASAP

## Colostrum Supplement for Calves

**NurseMate ASAP** is the first choice for farmers and ranchers who want to give their newborn calves a head start.

### **NurseMate ASAP is effective**

NurseMate is made from concentrated bioactives from colostrum. NurseMate gets the newborn up and nursing faster, giving it the head start it needs.

Research has shown that concentrated proteins in NurseMate, in larger amounts, are as supportive as colostrum in raising healthy calves.

### **NurseMate ASAP is convenient and easy to use**

NurseMate comes in an easy to use 30 mL tube. No pails, no mixing and no feeding tubes. Just put the tip of the dosing syringe on the back of the calf's tongue and push the plunger slowly. It's a good idea to carry a couple of tubes of NurseMate in your pocket every time you check the calving pen.

### **NurseMate ASAP is the right dosage**

NurseMate's concentrated formulation, in a 30 mL dosage size, helps newborn calves get started without filling them up so they are hungry for their first feeding of colostrum.

**"Gets them up and nursing faster."**

## NurseMate® ASAP Colostrum Supplement for Calves

### Label Information

**Use:** To prime newborn calf's system to help assure maximum benefit from mother's colostrum.

**Directions:** Feed entire tube as soon after birth as possible by slowly placing on the back of tongue. Feed at room temperature.

**Ingredients:** Condensed Whey, Biotin, Folic Acid, Vitamin B-12 Supplement, Sodium Benzoate (Preservative), EDTA (Preservative).

**Guaranteed Analysis, Each 30 mL syringe contains:** Crude Protein (Min.) 2%, Crude Fat (Min.) .1%, Crude Fiber (Max.) .1%.

This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed.

Store in a cool, dry environment out of direct sunlight. Keep from freezing. Keep out of the reach of children.

**AgriLabs® offers a number of nutritional products and information that can assist you in making smart decisions that impact the health of your newborn calves.**

#### ❑ **ACHIEVE® PRO Calf Paste**

An all-natural formula that shores up the calves ability to cope with stress when they are most vulnerable. Highly palatable, easy-to-use and extremely digestible. Formulated with targeted egg proteins and lactic acid producing bacteria, glycine, inulin and yeast extract to support intestinal health, and maintain a healthy microbial balance in the gut.

#### ❑ **Respond® with Zymace®**

A unique formulation of chelated minerals, probiotics, vitamins, essential oils and *Aspergillus oryzae* to assist with digestion and appetite. Available in multiple forms. Do not feed bolus, powder, or drench to sheep due to the copper levels.

#### ❑ **Hydra-Lyte®**

A balanced formulation of electrolytes, amino acids and dextrose specially buffered for young calves, lambs and foals. Can be fed with normal milk ration.

#### ❑ **Oral Vitamin Gels**

Highly palatable nutritional supplement gels are suggested for beef and dairy calves. Gels include: B12 Vitamin Gel, Multi-Vitamin Gel, AD3 Vitamin Gel, Vitamin C Gel, B-Complex Gel. Available as 300 mL oral tubes. Feeding rate for newborns is 5 mL

#### ❑ **AgriTags®**

Buttons are treated with Antibacterial Infection Protection™ to minimize site infection and improve retention. Patented laser+ink printing improves number visibility and durability. Available in yellow, white, green, orange, blue, red and purple. Cow, calf and multi-species sizes. Resealable bags of 25. Blank, numbered or custom.
