

Diaque™

Nutritional supplement for calves

Source of energy and electrolytes

Net Content

24 x 3.5 oz (100 g) packets

Diaque is a unique formula containing a patented hydrophobic citrus fiber.

Diaque provides a high energy source and fast nutrient absorption in calves. Its unique three step buffering system allows it to be fed with milk. Diaque may be used during times of stress due to changes in feed or environment. Diaque can be mixed in the normal milk feeding.

Diaque Feeding Directions:

Calves: For oral use only. Mix 1 packet (100 g) of Diaque in 2 quarts (1891 ml) of warm water, milk or milk replacer. Feed immediately. For larger calves or those requiring more energy, mix 1 1/2 packets (150 g) Diaque in 3 quarts (2837 ml) of warm water, milk or milk replacer. Feed every 8 to 10 hours for 24 to 48 hours. Discard any unconsumed mixed product each day.

Lambs, Kids, Crias: Remove from dam. Feed Diaque twice daily for 2 days. Each feeding for a 10 lb animal should consist of 1 tablespoon (10 g) of Diaque mixed in 1/2 pint (236 ml) of warm water. Feed using a bottle. Adjust amounts for larger or smaller animals.

Pigs: Mix 1 packet (100 g) of Diaque in 2 quarts (1891 ml) of warm water for a litter of 8 pigs. Feed in 4 feedings per day from a pan. Discard any remaining portion at each feeding. Normal feeding is for 2 days.

Foals: Mix 1 packet (100 g) of Diaque in 2 quarts (1891 ml) of warm water. Feed this amount to foal twice daily. May be fed with bucket or bottle. Amount recommended is for a 110 lb foal. Adjust for larger or smaller animals.

Normal feedings are for 2 days.

Caution:

For animal use only.
Keep out of reach of children.
Store in a dry place below 86° F (30° C).

Guaranteed analysis:
