

# Chemilizer

## Adjustable Pump

The **Adjustable Ratio Pump** will retrofit to any Chemilizer. Whether you're injecting medications, vaccinations, nutrients into your livestock drinking system at a 128:1 ratio, or using acids, or cleaning chemicals to clean system lines and need a 20:1 injection, the **Adjustable Pump** is ready! You can adjust your injection rate with a twist of the setting ring!

- Simple ¼ turn installation
- Intuitive ratio adjustment controls
- Ultra durable Kynar inner housing
