The Favored Choice Among Rodents!

FASTDRAW®

FastDraw takes 4-5 days to work.

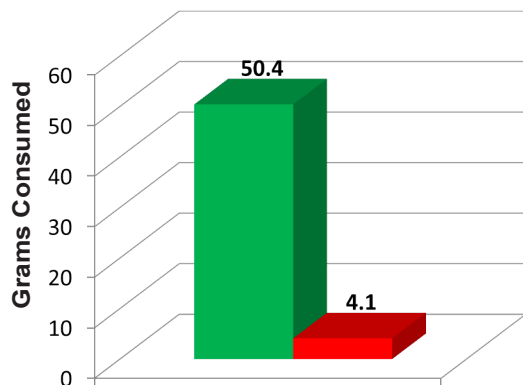

VS.

Red Blocks

House Mouse Study

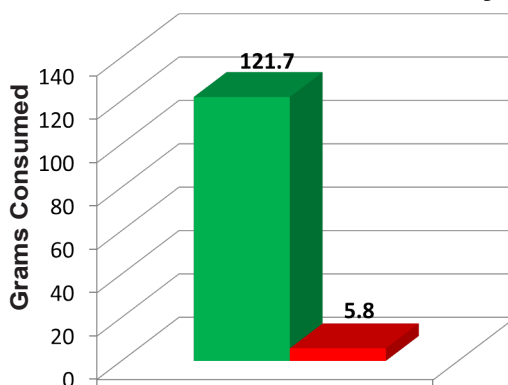

FASTDRAW®
RED BLOCKS

7 Day test performed in a dairy barn, above are the averages of 3 tests. *FastDraw* was compared head-to-head against red blocks with competing feed also available.

Data is based on a summary of Liphatech field study results.

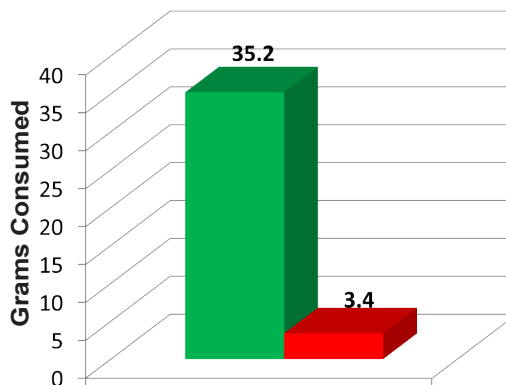

House Mouse Study

FASTDRAW®
RED BLOCKS

6 Day test performed at a feed mill. *FastDraw* was heavily chosen over red blocks with competing feed also available.

Roof Rat Study

FASTDRAW®
RED BLOCKS

Single night test performed on a hog farm. *FastDraw* was compared head-to-head with red blocks while competing feed was also available.
