PRODUCT INFORMATION BULLETIN

DAKOTA SHINE

Part Nos. DSA, DS1G, DS2.5G, DS15G

- ➤ Most Effective and Easiest Way to Enhance the Appearance of Faded & Oxidized Surfaces
- ➤ Penetrates the Surface, so there is NO Overspray
- ➤ Fast Drying Time Decreases the Overall Turn-Around Time
- ➤ Leaves NO Residue, Eliminates Worries of Dirt & Dust Collecting on the Surface
- ➤ Surfaces Maintain Like-New Appearance, which is Proven to Keep Resale Values Higher

DESCRIPTION

DAI's Shine is a unique and patented product that will restore the color, lustre and value to faded and oxidized surfaces like paint, decals, plastics, rubber and more. Shine is a ready-to-use product that requires no mixing. There is no product to waste or dispose of, simply pour any leftover product back into the container. Shine consists of ag-based ingredients and various other proprietary ingredients; it contains no silicones. These ingredients are designed to penetrate the surface to rejuvenate the pigments to their original, like-new appearance. If you want to restore the original luster to engine compartments, don't use greasy dressings, use Shine.

COMPATIBLE SURFACES

➤ Painted Surfaces➤ Decals/Vinyl Lettering➤ Rubber

PREPARATORY WORK

The surface must be free from dirt, grease, wax buildup and oxidation before applying Shine. Any grease residue left on the surface may cause adverse reactions when applying Shine. The surface must be dry before beginning the application of Shine. You may force dry the surface, if needed.

APPLICATION

- 1) Apply ONE thin-and-even spray onto the surface. You do not want to coat the surface; you want the product to penetrate the surface.
- 2) Once the bright color comes to the surface, there is no need to apply more.
- 3) You are looking for eye-appeal and even coverage.

PACKAGING

Shine is available in 16 fl. oz. aerosol cans, 1 gallon jugs, 2.5-gallon jugs and 15-gallon drums. Some customized packaging is available.

TECHNICAL DATA

Solubility in Water:	Negligible	NFPA
pH:	N/A	Health - 2
Appearance:	Clear amber	Flammability - 3
Odor:	Aromatic solvent	Reactivity - 0
