H Swivel Arm	090837BE	2
I Plastic Shoulder Washer	090838BE	2
J #10 x 1 1/2" Screw	910007SC	4
K Lid with Hinge	090853DL	
L Hinge Only	090843BE	
M 2-Stage Shutoff w/Screw	90831	2

INSTALLATION INSTRUCTIONS

- Fasten inlet to the ceiling with 8 - #10 x 1 1/2" stainless steel screws provided. (The inlet must be fastened squarely to ensure door opens freely. The doors can be adjusted by loosening the hinge screws and repositioning the door.)
- Fasten weight arm to bottom of hinge using 2 - 1/4" x 2" stainless steel bolts, 2 - 1" stainless steel flat washers, 2 - 1" stainless steel bent washers, & 2 - 1/4" stainless steel head nuts.
- Slide the nylon swivel arm over the end of the weight arm and attach to the side of the inlet (locate pilot hole), using a #10 x 1 1/2" stainless steel screw. (Note: exploded view above showing where the shoulder washer is located).
- Slide a rubber grommet over the end of the weight arm, followed by the 1 lb. weight and then a second rubber grommet. Adjust to desired location.
- With door closed, fasten 2-Stage Shutoff clip (locate pilot hole) using a #10 x 2 1/2" screw with a #10 x 3" or longer driver bit.
