Rough Opening: 27.5" x 27.5"

Ship Weight: Approx. 8 lbs

GRAVITY Part No. 90836

CFM: Approx. 2,490 @ 0.05 SP

Rough Opening: 27.5" x 27.5"

Ship Weight: Approx. 8 lbs

Attic Sleeve Sold Separately

- Great for minimum to maximum ventilation when you need precise control of air movement.
- Each lid is fully covered with a seal around the perimeter.
- 1" thick fully insulated, durable lids direct air along the ceiling for proper air mixing and minimize condensation, dripping, and freezing of inlet.
- Noncorrosive continuous hinge swings down to allow clean attic air into the main room.
- Gravity Inlet lids have adjustable counterweights to regulate airflow. Actuated Inlet includes actuated kit with pull string and winch block.
- Used for year round ventilation. All inlets are constructed with removable insulation stops and include pre-installed mounting screws.
